

The Academy Swimming Scheme – Acceleration Lessons

Acceleration lessons are designed to not only accelerate your child's swimming confidence, but to further develop their aquatic skills by attending an extra lesson a week...At half the price!

How does it work?

Have a look at the swim timetable to see which other class you would be able to attend. Once you have chosen contact the Swimming Co-ordinator to see if there is space available.

Is it open to all abilities?

Yes it is. If you found mid term your child was ready for the next group, providing there is room there is no problem for them to move up.

How much does it cost?

The additional lesson is just half the price of the normal term cost!

Places are very limited. Please contact Swimming Co-ordinator Dale Buck for more details.
